

RD Services

All biometric devices for Aadhaar authentication are mandatory to be registered with UIDAI w.e.f. 01-Oct-17.

Registered devices addresses the solution to eliminate the use of stored biometrics. It provides three key additional features compared to public devices:

1. Device identification – every device having a unique identifier allowing traceability, analytics, and fraud management.
2. Eliminating use of stored biometrics – biometric data is signed within the device using the provider key to ensure it is indeed captured live. Then the Registered Device (RD) Service of the device provider must form the encrypted PID block before returning to the host application.
3. A standardized RD Service provided by the device providers that is certified.

Below is the list of some UID complaint biometric devices used in Jeevan Pramaan <https://jeevanpramaan.gov.in> and link for registration of device

Device	RD Service
Mantra	URL :- http://download.mantratecapp.com/Forms/DownLoadFiles Windows Download MANTRA RD Service: 1) Download User Manual (for any clarification on RD service). http://download.mantratecapp.com/StaticDownload/Mantra_RD_Service_Manual_Android.pdf 2) Download RD Service http://download.mantratecapp.com/StaticDownload/MantraRDServic e.exe WINDOWS Download MFS100 Driver: 3) Download MFS100 Driver http://download.mantratecapp.com/StaticDownload/MFS100Driver.exe
Startek	URL: - https://acpl.in.net/RdService.html? Download : 1) Windows Certified RD service 2) Windows support tools 3) Download Installation guide for RD service–Windows platform (for any clarification on RD service).
Morpho	https://rdserviceonline.com/
Biomatiques (IRIS)	URL :- http://download.biomatiques.com/ Do the registration process and download UIDAI Registered Device 2.0: Windows:

	1) BiomatiquesRDS EPI-1000 Installer.msi
Precision	https://pbrdms.precisionbiometric.co.in/RDSservice/index.html
TATVIK	https://rd.tatvikbiosystems.com/
Secugen	http://www.secugenindia.com/rdservice.html
Iritech (IRIS)	RD SERVICE:- https://drive.google.com/open?id=1X87mbFuhXMxEoOFjyYjYCr88VjLoY2e DEVICE DRIVER: https://drive.google.com/file/d/0B2qevIMpJKlnOWhqSm1zUHVvWDA/view?usp=sharing SUPPORT TOOL:- https://drive.google.com/open?id=0ByO1O2iHh7BeZHBlaE5wOTVINmc

After installation of relevant Biometric device, you have to type **chrome://flags/#allow-insecure-localhost** where URL is typed in chrome browser and Click on “**ENABLED**” option for further processing as shown below:
